

2010 Pricelist

We know that every wedding is unique and every couple want something different from their photographs. We therefore would never ask you to select a package until you have seen all your photographs. Once you have viewed your photographs you simply have to create your own bespoke package from the options below. Our prices work on a sliding scale, basically the more photos you order the lower the price per print.

Full Day photography (from bridal preparations to first dance) by two photographers

£950
